THS

24 years of global presence, Taiwan Hardware Show robust supply chain capabilities to the world, providing diverse and cross-sector sourcing options for global buyers.

Local Taiwan's Brands and international brands from the United States, Japan, Italy, and Germany will be showcases, including 3M, BADGER, IMPERIAL, RIMAC, RIBLE PROSTAFF, SUNKEY, PRAYMAN, TOKEN, TDK, KURITA, KAKUDAI, ROYAL, OSAKA JACK, SANYU, SUN CITY, PICUS, CACTUS, Lyra, and Rothoblaas etc

Highlight exhibition areas: "ESG Innovation Area", "Hardware and Hand Tools Innovation Area", "Smart Building Materials and Construction Area", "Plumbing Area", "Garden Area", "Safety Protection Area", "Fasteners", "Auto Repair and Auto Parts", "Hardware Machinery and Factory Equipment", and "Air Conditioning Hardware Tools Experience Area".

IMT

IMT focus on upstream and downstream metal supply chains in the Asia-Pacific region, showcasing sophisticated process technologies and customized professional services.

Main Products: Casting, metal materials, metal processing forming, testing equipment, wire and tube equipment, welding and heat treatment, molds, 3D printing.

Highlights: OEM manufacturing area, smart manufacturing, energy - savings ESG area

Show Highlights

TSAFE

Personal Protective Equipment: Showcasing OPO brand industrial helmet, European IronSteel safety shoes, cut-resistant gloves, CE-certified air respirators, chemical-resistant protective clothing, and cooling vests, among other personal protective equipment.

Explosion-Proof Equipment: Showcasing the latest Taiwan Safety Mark explosion-proof products, meeting the safety and control needs of high-risk work environments

Gas Safety: Showcasing gas detection and alarm systems, carbon monoxide alarms, automatic shut-off valves, gas pressure protection devices, and pressure regulators, ensuring safe gas use in commercial and industrial settings.

Fall protection area: Brands such as 3M and Italy's Rothoblaas showcase a complete range of fall arrest systems, including fall arresters and safety ropes, providing protective solutions for high-risk work.

RHVAC

International Brands Gather to Showcase Innovative Technologies

Brands from Germany, Japan, South Korea and Denmark showcased the latest energy-saving technologies, including HITACHI centrifugal chillers, GRUNDFOS pumps, Gebhardt and ebm-papst fans, KTR couplings, and environmentally friendly refrigerant R-134a.

Made In Taiwan area: Showcasing Taiwan's Product Strength

Energy-saving products of magnetic levitation chillers, intelligent EC ventilation wall modules, enclosed cooling towers, cooling water treatment, and heat pump systems made in Taiwan.

ESCO/ESG Energy Saving and Carbon Reduction Service Zone

Provides energy-saving technical services and government energy-saving subsidy consultation for manufacturers and distributors.

On-site Activities, Forums and Conference Highlights

Taiwan Hardware Show (THS)

Current Trends and Future Directions in the Hardware Market: New Challenges and Response Strategies

France | Challenges of New Technologies, the Internet of Things, Artificial Intelligence, and Sustainability to the Hardware Industry

Italy | Export Opportunities as a Heart of Manufacturing

EU | Future Directions of the European and Global Hardware Markets

Germany | Creating low-carbon heat treatment process technology;

Thailand | New OEM opportunities.

International Metal Technology (IMT)

Key strategies for strengthening industry resilience amid tariff, exchange rate, and geopolitical risks, and aligning with emerging business opportunities

Europe / ASEAN | Metal processing transformation and upgrading;

Germany | Creating low-carbon heat treatment process technology;

Thailand | New OEM opportunities;

India | Deepening metal processing collaboration;

Taiwan Foundry Industry Upgrades: Smart manufacturing, fast delivery, and global order capabilities; Investment in Indonesia and local metal demand

T-SAFE Taiwan

Demo area

3M Fall Arrest Roadshow Car Demonstration

Demonstration of Safety Rope Assembly Technology for Exterior Wall Air Conditioning Work

Practical Demonstration of Height Work and Exterior Wall Inspection Techniques

Seminars

Explosion-proof electrical safety technology seminar

Factory building fire prevention and fire disaster reduction seminar

Refrigeration & HVAC Taiwan

Over 30 R&HVAC seminars will focus on the following topics:

High-Tech energy saving: sharing energy-saving technologies and case studies for AI data centers, semiconductors, and bio-labs

Commercial energy saving: sharing energy-saving cases and technologies for healthcare, hotels, department stores, and retail

Factory Energy Saving: Sharing energy-saving technologies for manufacturing industries such as precision machinery, ICT motors and electronics, rubber and plastics, petrochemicals, and healthcare biotechnology

ASHRAE air conditioning standards:

Engineering verification management strategies

ESCO/ESG government subsidy:

Resources for energy conservation and carbon reduction

Canadian Smart Building Association:

Smart building practices and challenges from a Canadian perspective

KEY EXHIBITORS

JUSTINUS
Justinus Scientek Co., Ltd.
